

HEALTH CENTER

Medical care is available at the Health Center to all full-time and part-time undergraduate, graduate, law, and PA students. During the academic year, the Health Center is open from 8:30 a.m. to 4:30 p.m. on weekdays, except University holidays. A physician is available for consultation every weekday morning and afternoon throughout the year, except University holidays. Summer hours are 8:30 a.m. to 4:30 p.m. Monday through Thursday with limited physician hours. The Health Center is closed on Fridays during the summer. Students should call the Health Center to schedule an appointment at (937) 229-3131. Students may cancel appointments through our portal at myhealth.udayton.edu (https://myhealth.udayton.edu/login_directory.aspx). In case of emergency, call Public Safety at (937) 229-2121.

Pre-admission physical examinations are not required, but students with chronic health problems are advised to have their physicians send records or recommendations to the medical director. Every student born in 1957 or after is required to show evidence of immunity to measles, mumps and rubella. All students are required to fill out a tuberculosis screening questionnaire. Students may upload their immunization history on the student portal. Students living in on-campus housing also have specific requirements for meningitis and hepatitis B vaccines, specified by Ohio law. A link to the health requirement form is located on the Health Center website (<http://www.udayton.edu/studev/healthcenter/>).

Undergraduate, Law, and PA students are eligible for Health Center office visits at no extra charge. Other Graduate and IEP students pay a fee for office visits at the Health Center. The charge for a physician visit ranges from \$65 to \$75, depending on the length of the visit and the type of services provided. Charges for medicines dispensed, allergy injections, immunizations, laboratory tests, x-ray examinations, and miscellaneous items are billed to ALL STUDENTS.

The University believes it is the responsibility of each student to have health insurance and therefore expects students will have it for the entire time they are enrolled. Having health insurance protects both the student and the community. International students are required to provide evidence that they have health insurance that will cover them the entire time they are a student at the University of Dayton. The University is not responsible for covering health care costs. All charges incurred at the Student Health Center are reported to UD's Office of Student Accounts. Inquiries regarding bills should be made at the Health Center between 9:00 a.m. and 3:00 p.m. weekdays. Itemized statements can be provided upon patient request, but these are not automatic and the Health Center does not bill outside insurance companies directly. However, students should bring a copy of their health insurance/pharmacy cards to each visit.
