Sociology is the scientific study of all levels of society, that is, people in groups. The discipline's unique insight is that people are who they are largely because of their social experiences and interactions with others. "The sociological imagination" enables us to understand the relationship between our individual experiences and the broader social context, from the local to the global. Beyond various aspects of social behavior, sociologists study the causes and consequences of social issues such as health, inequality, racial relations, family dynamics, and crime. Sociologists strive to apply their understanding in ever more constructive ways for the improvement of society and the common good.

Students intending to major or minor in sociology should consult with the department chairperson to plan their program of courses. The requirements for majoring in sociology are stated in the outline below. The minors in sociology, anthropology, and social work consist of 15 semester hours.

The department also contributes coursework and faculty to the Human Sexuality Studies Certificate (http://catalog.udayton.edu/undergraduate/generalinformation/interdisciplinary/humansexualitystudies).
