MILITARY SCIENCE

Courses

MIL 101. Military Leadership I. 1 Hour
Introduces you to the professional challenges and competencies that are critical for effective leaderships. Students learn how the personal development of life skills such as critical thinking, time management, goal setting, stress management, and comprehensive physical and mental fitness relate to leadership, and the Army profession. The focus is on developing basic knowledge and comprehension of leadership dimensions while gaining an understanding of the Reserve Officers' Training Corps (ROTC) program, its purpose in the Army, and its advantages for the student. Topics for this course include: Army Leadership, Fitness, Basic Map Reading and Land Navigation, rappelling, first aide and other basic life skills. Note: enrollment in this course does not obligate the student to the military or the Army ROTC program. Leadership 1 introduces you to the personal challenges and competencies that are critical for effective leadership and communication. Students learn how to develop life skills such as time management, critical thinking, physical & mental fitness through resiliency, and stress management. ROTC programs and opportunities; rappelling, leadership, communications and management skills, and rifle marksmanship. Optional field trips, field exercises, physical training, leadership laboratory and social events.

MIL 102. Leadership II. 1 Hour
Rifle marksmanship, fundamentals and principles of leadership, management techniques for individual, group behavior and leadership dimensions. Optional physical training, leadership laboratory, and social events.

MIL 201. Map Reading & Small Unit Tactics. 2 Hours
Study of basic map reading skills, small unit tactics, movement techniques, weapons marksmanship orientation, and survival skills. Participation in leadership laboratory and two field training exercises. Optional physical training and social events.

MIL 202. Military Leadership. 2 Hours
Interactive study of the fundamentals of military leadership, ethical decision-making, effective counseling techniques, and conflict resolution. Study of the role and branches of the US Army and the role of the commissioned, warrant, and noncommissioned officer. Optional participation in leadership laboratories, field training exercises, physical fitness training, and social events.

MIL 299. Military Science Leadership Lab. 0 Hours
This is an academically challenging course were you will study, practice, and apply the fundamentals of the Leadership, Officer Skills, Army Values and Ethics, Personal Development, and Tactics at the small unit level. This course includes reading assignments, homework assignments, small group assignments, briefings, case studies, and practical exercises.
