

ROESCH LIBRARY

Roesch Library has more than 1.2 million print and electronic books (<https://libguides.udayton.edu/ebook-collections/>), subscribes to more than 400 databases (<https://libguides.udayton.edu/article-databases-to-start-your-research/>), and provides access to 100,000 print and electronic journals, as well as thousands of streaming videos (<https://libguides.udayton.edu/streaming-video-collections/>). Through OhioLINK—a statewide consortium of college and university libraries—students, faculty, and staff can access over 38 million additional items at member institutions, delivered on demand within a few days. A Federal Depository Library since 1969, Roesch Library also provides access to government records in physical and electronic forms.

With limited exception, Roesch Library is open every day during regular weeks of the term and 24 hours the week prior to and during final exams. Library assistance is available in a variety of forms (<https://udayton.edu/libraries/help.php>).

Computers are available, as well as wall-mounted monitors, cameras, phone chargers, podcasting and vlogging kits, and various other types of media equipment. Multifunction printers, available with a University login, can print, scan, and copy in grayscale and color. Open study areas are available throughout the building with noise levels that vary by floor—noisy, conversational, considerate, and silent. Students, faculty, and staff also can use an online reservation system (<http://libcal.udayton.edu/>) to book study rooms, huddle rooms, and team rooms. Wi-Fi is available throughout the building.

The Libraries, in collaboration with campus partners, also provide all University of Dayton students, faculty, and staff with access to an online subscription to (<https://libguides.udayton.edu/media/nyt/>) *The New York Times* and The Wall Street Journal (<https://libguides.udayton.edu/media/wsj/>) free of charge. Visitors can view rotating exhibits in the first-floor gallery space. An open-access institutional repository, eCommons (<http://ecommons.udayton.edu/>), provides a permanent and discoverable electronic archive of University scholarship, culture, and documents.

For more information or to browse the catalog, visit the website (<https://www.udayton.edu/libraries/>).
