

FINANCIAL ASSISTANCE

Graduate Assistantships

Graduate assistants work in an academic department in exchange for part of their tuition. Graduate assistants also receive a stipend. A typical graduate assistant will work 20 hours a week. If you are interested in applying for a graduate assistant position, please contact the Graduate Programs Coordinator at (937) 229-2056. Students must be accepted into an SBA graduate program in order to qualify for a possible graduate assistantship position.

The usual appointment is for a period of nine months. Renewal may be awarded for a second year, contingent upon satisfactory performance. Assistantships are limited each year; therefore, competition is keen.
