

PROGRAMS OF STUDY

The School of Engineering offers programs leading to master's and doctoral degrees in various areas of engineering.

To learn more about the available programs in the School of Engineering, explore the programs:

- Aerospace Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/aerospaceengineering/>)
- Bioengineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/bioengineering/>)
- Chemical Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/chemicalengineering/>)
- Civil Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/civilandenvironmentalengineering/>)
- Computer Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/computerengineering/>)
- Electrical Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/electricalandcomputerengineering/>)
- Electro-Optics (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/electrooptics/>)
- Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/engineering/>)
- Engineering Management (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/engineeringmanagement/>)
- Engineering Mechanics (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/engineeringmechanics/>)
- Materials Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/materialsengineering/>)
- Mechanical Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/mechanicalengineering/>)
- Renewable and Clean Energy (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/renewablecleanenergy/>)
- Systems Engineering (<http://catalog.udayton.edu/graduate/schoolofengineering/programsofstudy/managementscience/>)
